HUMPHREY BROTHERS TAKE FIRST STEP IN MEAT WAR IN RENO

One Man Killed and Seven Injured, Result of a Head-on Collision in Los Angeles

BOTH CONCERNS ARE REPORTED PREPARED FOR BITTER FIGHT

GEORGE SAUER, for years engaged in the meat business in Reno, yesterday disposed of his [illegible] to the Humphrey Supply Company, and on top of the [illegible] comes the report that a big fight is on between the Humphrey Company and the Nevada Meat Company.

Several weeks ago it was reported that a clash between the two large interests was imminent, but not until yesterday morning was it confirmed by a man close to both corporations.

When Goldfield first attracted public attention the Humphrey Company established a branch house at that place. Success at once crowned their efforts and soon after the Nevada Company opened an opposition house in the [illegible]. This started the fight that is now to be carried to Reno. Whether prices will be cut, meats given away and other boons to the [illegible] public will result can only be determined by events. Many Reno people believe the fight will be a bitter one.

CZAR'S SOLDIERS ARE FAILING HIM

Cossacks Only Are Relied On—At Warsaw Rejoicing Over End of Martial Law Is Quelled by Police and News Suppressed

ST. PETERSBURG, Dec. 2.—The second day the arrests by the guards at Tsarskoe-Selo Thursday night and Friday morning numbered 250, including twenty officers.

All kinds of rumors are current, including the assertion that one of the grand dukes is involved in the conspiracy against the emperor, but none of them can be verified. It only seems certain that no confidence can be placed even in the guard regiments. The arrested soldiers are seen every day, escorted by their comrades with drawn swords.

St. Petersburg is swarming with Cossacks, the only troops against whom there is no suspicion of dissatisfaction. It is understood that the whole of the Cossack force of the empire, some 45,000, will be mobilized.

A conference was held at Count Witte's residence last night to consider the demands of the telegraphers. "From the time [illegible] were busy and our hosts were busy [illegible]. Goldfield and Tonopah are the greatest mining camps in the world. They can't be headed off. Nearly everyone is prosperous and their prosperity only adds [illegible] good fellowship."

DREAD ACCIDENT IS WITNESSED BY MANY IN HEART OF CITY

LOS ANGELES, Dec. 1.—Ex-Councilman James Davenport was killed and seven more or less seriously injured in a collision between a northbound traction trolleycar and a westbound Washington street car at the intersection of Burlington street and Washington Avenue at 3:40 this afternoon.

The Washingeon street car, which was running at a high rate of speed, collided full force with the center of the traction car, which had the right of way, knocking the traction car clear off the tracks and overturning and completely demolishing it.

Davenport was in the front seat of the car, which was an open car, and was caught patrially beneath the car when it fell on its side. He died soon after he was removed from the wreck.

Those who witnessed the wreck believe it was caused by carelessness, for there was nothing on the track to obstruct the view of either of the motormen. The authorities are now investigating.

IN FAVOR OF A GOOD PLAN

Professor Church Upholds Councilman Newmarker and Offers Other Suggestions

Editor Journal:—Councilman Newmarker's plan of constructing a municipal electric light plant should receive the earnest support of the taxpayers of Reno. But while this plan is being consummated the consistent beautifying of the city should not be [illegible] to wait until the erection of buildings prevents the successful attainment of the plan. To wait is to lose the opportunity while to purchase the land in question would be an exceedingly remunerative business transaction for the city in case [illegible] afterward decided to dispose of it.

[illegible] of the present site of the city hall would pay at least a considerable portion of the new site at the [illegible] and [illegible] bonds would [illegible] for the additional expense of obtaining the property to the west.

But to return to the purchase of an electric light plant, whether large revenues accrue to the city or not, the [illegible] is commendable and should include the purchase of a water system as well to secure reasonable rates and [illegible] quality of service. But if others have had as long a pursuit as the writer has had to find the petition, they may have abandoned the search. Let this petition be systematically [illegible] in order that some decisive action may be taken while the need is uppermost in the public mind.

Regarding the expense of sewers and street improvements, why not charge a portion or all of the expense to the abutting property, charging the trunk line sewers against the section of the city benefited or the city as a whole?

Other improvements such as parks, [illegible] even if the latter are [illegible] could be obtained [illegible] the sale of bonds and all [illegible] taxed to repay them. To expect something for nothing when the [illegible] will be poor business policy. The city cannot grow on a city license income alone.

The question of fencing alleys in the city in order to lay sewers could be settled for all time and the expense thus incurred by the council almost entirely saved by laying the [illegible] an unincumbered right of way through the older blocks or in the streets in the case of the sewers. The writer himself admits a strong objection to alleys, especially in the [illegible] district, not only on account of the unsightly opening made through each [illegible] of which the outside lot receives the greatest injury, but also on account of the influx of alley [illegible] which prevents the healthy growth of the city and increases the fire risk on account of the rows of inflammable structures—houses and [illegible] crowded together.

On the other hand, there will be less need of alleyways as the use of public utilities, such as gas, etc., increases.

How much the absence of alleys can benefit a town may be seen in Ann Arbor, Mich., or Berkeley, California, both attractive on account of their beauty, or in the block east of Virginia street and between Mill street and the river.

The [illegible] of such right of way through at least two blocks of western addition has been freely offered and the guarantee of free access at all times to the sewer line can be readily obtained. In addition to this, the writer has offered to furnish the city with water and place for flushing the sewer, and will willingly pay one-half [illegible] of the sewer back of his lot provided the council adopt the plan of charging the cost of sewers against [illegible] property.

The plan of laying sewers along a right of way instead of in an alley has [illegible] been tried in Reno in Western Addition and at one point on the south side, and no commensurate inconvenience seems to have resulted in either case. If this plan could be [illegible] a saving of probably [illegible] hundred dollars could be [illegible] in one condemnation suit where the [illegible] must lose the half of his claimed income but offers free right of way.

Queen Alexandra's Birthday

[illegible] all the church bells in the city pealed forth their greetings [illegible] at the military and naval stations fired a royal salute.

The king and queen spent the day in comparative quiet at Sandringham. The queen received many valuable presents and hundreds of letters and [illegible] of congratulation from all parts of the world. Editor Journal:—Yesterday the aforesaid met Dan Huffaker on the street and asked, "Dan, did you ever hear the story of the men who hauled coal to Newcastle?"

"Well," asked Beck, "what did you think of people who would haul coal to Newcastle?"

"Damfools," said Dan.

"Now," asked H. H. B., "what do you think when I tell you that yesterday I saw three wagons hauling water from the country south of town to the Truckee river?"

"Give it up," said Dan, and the next day it snowed.

With the Actor Folk

In Addition to the Present High Class Attractions Many Others Are Billed for the Near Future

The Utopians musical burlesque company presented two amusing skits with several pleasing specialties of a high order at the opera house Thanksgiving night.

Twenty ladies composed the chorus, which was the weak part of the show. However, they could sing some. Miss Jane Aubrey, the leading lady, pleasing in personality, and with a voice as clear as a crystal, cleverly rendered several songs in brilliant costume, the chorus joining in the refrain. Miss O. Hana San, in her novel act "Scenes From Japan," in which her artistic posing is so beautiful, is also a prominent feature. Rose Jeanette, the soubrette, and Mathes and Jess, comedians, did some fine work. The comedy jugglers, the Ashtons, were skilled experts in their line, as also were the Brooks brothers. The costuming of the chorus was unique, but the show collectively was entertaining.

PARISIAN BELLES.

One of the many burlesque attractions that will visit the city of Reno during the coming season is the Parisian Belles, next week's attraction at the McKissick opera house Thursday, December 7, which, it is said, surpasses anything that has ever been put together to play the wheel houses. John Grieves, the well-known New York manager and producer, has got the show in hand. He has endeavored to gather together a company of entertainers that would be second to none and that he has succeeded beyond his expectations is best proven by the patronage enjoyed by the show in every city that it has played. Two rattling burlesques entitled "The Sultan's Wives" and "The Girl From Manila" will possess a chorus of twenty carefully selected voices, together with an olio that is second to none. The musical numbers will be found the very latest. The comedy situations are new and the costumes the brightest and prettiest that money could buy. The company will no doubt do a great business with such an excellent attraction as the Parisian Belles.

KING EDWARD SEEKS RELEASE OF CONVICT

Convict Barker, serving a life sentence in Folsom prison for a crime committed in San Francisco, according to Gorman's confession by Gorman himself, is pertions to have King Edward of England, Scotland and Ireland and all the rest of the British domain to intercede for him. Convict Barker is an Englishman, and a subject of King Edward. His case is being looked up by Courtenay Bennett, British consul from San Francisco, who was in Carson yesterday. The confession of T. W. Gorman, made on November 17, when he paid the penalty of death for the part he played in the brutal murder of defenseless Jack Walsh, was verified yesterday by the British consul, who went through Reno last night on his way back to San Francisco.

The consul would not discuss his further movements in the case. All he would say was that he had verified the fact that the confession was made and that Gorman made it. Whether it was true or not would be for future investigation to establish. Meantime Barker is an Englishman and has appealed to his country for assistance. He claims he is innocent and his country is noted for the care it takes of its citizens the world over.

Sheriff Ferrel is in receipt of a letter from Warden Yell of Folsom prison, which declares a degree of confidence in Barker's reiterated assurance of his innocence. The fact also that Gorman made the confession declaring the guilt of the old crime to be his, just before he died on the gallows, lends credence to the story.

Northwestern Rhodesia Joins Union

Capetown, Dec. 1.—Beginning with today northwestern Rhodesia forms a part of the South African Customs Union, with the same status as Basutoland and the Bechuanaland protectorate. One effect of this will be the customs union preference on British goods by this territory. It has also been announced that articles 11 and 15 of the customs convention will apply to northwestern Rhodesia. These articles contain technical provisions which were inserted to meet the requirements of Southern Rhodesia.

We bought these goods at very low prices from a manufacturer closing out his stock. We had to pay spot cash and take all he had, hence we have only got certain articles, but what we have got are much below the usual price. The sale will last for one week, unless we sell out in less time, and the goods will be sold for cash only.

Come early before they are all gone, you will not have another chance again in a hurry.

A SHAME TO CIVILIZATION

Reno Man Makes a Strong Plea for Oppressed Jews of the Czarland

Editor Journal—I notice in the press dispatches that the powers are sending their combined fleets to Turkey to make a demonstration, or as we would term it in America, "bluff" in support of the demands of the powers for financial control of Macedonia. Now, what I want to know is this: The air is still heavy with the cries and sighs of the defenseless women, poor sucklings, old men, who were murdered in that God cursed Czarland. I am referring to the Hebrew massacres, and none of the powers even raised her voice against this diabolic government, which, to our shame, calls itself Christian. The most liberal countries, namely the United States and England, stood their hands folded and looking on to this terrible spectacle, while sometime ago, when a few missionaries suffered in China the whole Christian world was up in arms. Is it because those were men, human beings, and the latter only Jews? In the Macedonian affair because the dollar is above the man? I am at a loss to judge it correct. The last Hebrew massacre was not merely a blood bath for that old, great race, but also the crucifixion of our civilization. The whole Christian world is responsible in a certain degree for those poor slaughtered for not to lend a helping hand to a body in distress by the one who is in a position to do so, seems incomprehensible to the Christian world stands indicted before the great bar of justice. Of course, I don't mean that the United States and England ought to involve in a war on account of it, but their protest itself would do a great deal for those poor martyrs. What a strange compound! The powers setting their combined fleets in regard to a few dollars and did not even utter a word of protest when streets ran red with blood of women and babies. Christian civilization, strange are its ways.

Hoping you will enfranchise me, I am,

Yours truly,

H. BUSHELL.

Reno, Nev., 26th, 1905.

LARGE CROWD AT BIG PARTY

Masquerade by Wheelmen Thursday Evening Greatest Success in History of City

Never in the history of Reno has a more successful masquerade ball than that given by the Reno Wheelmen at their hall last Thursday evening been held. From start to finish it was a success, the only drawback being that of numbers. Both the floor, as well as the spectators' gallery, was crowded from the first dance Thursday evening until early yesterday morning, and from start to finish not a disagreeable feature was reported. Everyone went for a good time, the door committee used extra precautions, and no one of objectionable character was admitted, though several attempted to enter the hall.

The committee on awards had a difficult task, for the costumes were varied and for the most part original. All are entitled to honorable mention. The same can be said of the entertainment committee, for which Adolph Manheim is chairman. The prize winners were:

Miss Echo Rilenour, best dressed woman, gold watch; J. T. Swinton, best dressed man, gold watch; P. J. McCall, the most original character; Amos Dickey, best sustained character; Misses Lucia Robbins, Myrtle Cooper, Rhea Archibald, Alice Poindexter and Alice Robb, the best group.

Misses Rea Smith and Leta Peek, special prizes; Messrs. Costello, Nagle, Davis, Strausburg, Gordon, Dean and Taylor, best gentleman group; Mrs. Nan Hardinger, Mrs. S. A. Connors and Ray Collins, spectators' prizes.

TROUBLE IS BREWING IN DARKTOWN TONIGHT

Stella Clark, a negress, appeared yesterday morning before Justice Pollock and swore to a complaint against Charley Wilson, the colored runner of the Hotel Golden, alleging that he had attacked her in her house near Perry's livery stables.

About the same time that she was swearing to the complaint, Wilson was urging to get some kind of a warrant against her from District Attorney Craig, but Mrs. Clark beat him to it, and Wilson was arrested.

The evidence adduced showed some conflict and on motion of Attorney Craig, the case was dismissed. When last seen, the defendant was walking down the street with Rose Blossom and Lily White, two colored ladies who had been called in as complainant's witnesses; they disappeared in a cafe.

Both parties to the case declare that the end is not yet in sight.

MORE LETTERS FROM TEACHERS

Attorney Craig Receives Another Letter From Eastern Applicants for a School

Still the letters accumulate on District Attorney Craig's desk, from ambitious teachers who have wearied of the conventions of the east and yearn for the freedom and experience of western life. And they are all good teachers too. Mr. Craig says, "if you don't believe it, read their letters."

Pluck there is too too in their messages. School districts seem crowded in the east with teachers as well as pupils and the article printed in the Journal some time since announcing that there are many chances for school teachers has made many a female heart beat with renewed confidence in the possessor's ability to make her own way in the world.

This is another letter which is referred with mingled pleasure and confidence to the school districts of Nevada which may require the services of such a brave heart and cultured brain as the writer's:

"I noticed in a western paper that the schools in your state are short of teachers and that you pay good salaries.

"A friend of mine and myself have determined to offer ourselves as candidates for your favor, ready to fill any vacancy after February, 1906.

"I am a graduate from a high school classical course in New York, also from the New York State Normal school. I have an A. B. degree from the Michigan university. If you look upon our applications with favor will forward you photographs, credentials, etc. Sincerely yours,

ESTHER E. ALDRIDGE,

Visiting Nevada Friends

B. C. Segraves, Lieutenant in the United States army, graduate of the class of 1899 of the University of Nevada, arrived in Reno yesterday morning on a visit to old friends. Mr. Segraves for some time past has been stationed at the Presidio in California and took advantage of a brief furlough to drop into his old home state.

LIEUTENANT RODGERS RESIGNS POSITION

Thomas A. Rodgers, lieutenant of the guards at the state prison, resigned his position yesterday. Mr. Rodgers has been suffering from rheumatism for some time and his condition made his resignation necessary. He is expected to arrive in Reno today. The name of Mr. Rodgers' successor has not been announced as yet.

STOCKS, MINES and MARKETS

SOUTH PARK IS A GOOD DISTRICT

As High as $300 Per Ton Has Been Obtained From Strong Leads in That Section

South Park is two miles south of Ballarat, and is greatly handicapped by a lack of water and wood, and battery water for the mill was secured from a well sunk on the edge of the Salt Lake in Panamint Valley. The Cecil R vein occurs in a fine graided schist and lies almost flat. It is small averaging about eighteen inches wide, but the ore is remarkably high grade. The company installed a three stamp mill with oil style gasoline engine and while the production of the mine is said to have been considerable, it was a failure. During the last year the mine has been a favorite to leasers, and several men have made small stakes by working the vein.

One great disadvantage in mining it is the fact that the ore is always frozen to both walls, making it bad to break and causing great loss after shooting. Nevertheless two sets of lessees have been able to extract much ... of high grade ore which has been shipped to San Francisco to the smelter. The grade of carefully sorted ore was about $300 per ton though some of the last shipment was sorted to a grade above $1600.

E. A. Coulter is the owner of a promising group near the head of the canyon or in South Park, from which the canyon and in fact the whole district takes its name. While all the canyon ... into the parks near the head, still this is the most extensive park of ... several times quite a few acres ... adapted to grain and ... thrive through natural rainfall.

The ... group shows a smaller vein of high grade ore and Mr. Coulter ... hauling over a small ... Stone Corral. The vein ... about a foot wide and carries ore averaging $35 per ton, free.

... W. Gray, H. M. Thurman and M. ... are the locators of the Precious Metal group on the east side of the Park, the group having been located this last summer. While they have some good horning ore, they have not as yet done sufficient work to ... what they have. The vein ... of good width, running about 4 feet ... is known to have considerable length. Similar veins have been traced over into Redlands canyon to the north.

Joe Gosline and Tom Shaughnessy have a valuable lead carbonite deposit on the line near the very summit of the range. The location is against the working of the mine and the topography of the surrounding country is exceedingly rough. The ore is of a superior grade for lead ore. Three feet will average 60 per cent lead and 15 ounces silver $5 in gold. While such a grade of ore is not profitable shipping ore, at this time, still if Ballarat gets a railroad, such a grade ... is able to pay handsomely and ... big demand by the smelters for ...

Such a mine near any railroad point in a mining country would be shipping right today and showing a handsome profit to its owners.

This is only one of the many such lead-silver mines that occur at the ... in the range and in ... every canyon north and south of ... It is called the lead belt ... at an average of about 7000 feet, always in the roughest kind of limestone country.

There being no possible way of handling the ore, none of the prospecters pay any attention or even waste time locating on the belt.

WILL OPERATE PINE GROVE MINE

C. A. Baxter Buys Nevada Chief Claim and Prepares to Construct a Five-Stamp Mill

A sale of considerable importance to the mining intersts of Nevada was consumated yesterday when C. A. Baxter purchased the Nevada Chief claims in the Pine Grove mining district. The purchaser states that he will immediately erect a five-stamp mill and other machinery necessary for the proper operation of the mine and the handling of its product.

Everybody Prospecting

Prospecting has become a mania with nearly everybody about Caliente for all that can get out in the hills take advantage of conditions and "hike" out in search of a claim.

There may be a fraction or two in the close vicinity of the town that a prospector might be able to locate, that is, if he runs the lines and looks over the ground closely, but it is our opinion that even with a fraction, it is a hard thing to get in the close vicinity of this town and close in to where the rich float is being found.

It is wonderful to realize the number of leads that are being discovered about Caliente and the amount of gold there is in them when only a short time ago there was no thought of gold being in the hills until Mr. Peer discovered the float and virtually commenced the foundation of a great mining district.

The hills are dotted with prospectors and more going out to locate claims every day.—Express.

SPENT NIGHT IN GOLDFIELD BLIZZARD

J. T. Fleming, a mining man from Pennsylvania, arrived in Reno Tuesday evening from Tonopah and is registered at the Riverside hotel. Mr. Fleming was one of a party of three caught in the recent blizzard between Bullfrog and Goldfield. After much hardship he made his way into Goldfield and from there to Tonopah by automobile.

"It was certainly a cold experience, one I do not care to pass through soon again," said Mr. Fleming in this city yesterday.

Find Indian Girls in Snow

Four Indian girls, the oldest not over 11, ran away from the Indian school at Carson, and were not found until an experienced Indian trailer had followed the truant girls' footsteps to the summit of Lakeview. Here the four children were discovered asleep in the snow, while the thermometer registered near zero point. They could not explain their flight except that they sought to be free from restraint.

CHICAGO COUPLE WED IN THIS CITY

Charles E. Korme of Chicago, and Miss Mattie E. Van Hoesen, also of Chicago, were married at the Congregational church Thursday morning at 10 o'clock. Rev. C. L. Mears officiated. The bride arrived Thanksgiving morning and was met at the depot by the young man of her choice.

Mr. Korme has been located in Nevada for some time. The couple left last night for California and after a honeymoon trip will make their home on the Pacific coast.

Are Rushing Operations

Superintendent Henry Goering arrived here Monday morning from the Last Chance Mine in Mohawk where he has been engaged for the past few weeks in getting in shape for the winter's work.

Mr. Goering reports everything to be progressing nicely at the mine. A building 25x50 feet has been constructed at the mouth of the tunnel, to be used as a blacksmith shop, etc., and in which will also be stored timber, lagging and lumber for use in the mine. Twenty-six thousand pounds of freight has been received at the mine consisting of 19,000 pounds of T rails, picks, shovels, drills and other mining implements, groceries and lumber. Two cars of 8000 pounds each are expected to arrive within a few days, with considerable other freight. Eight men are employed in getting out timber, running tunnel, etc. A Chinese cook attends to the culinary department.

J. C. Campbell, the mining man of Nevada City, who is one of the heavy stockholders and who promoted the deal whereby this mine was sold by the Goering brothers to the present owners, will arrive at the mine this week for a short stay.—Record.

In Time of Peace

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all druggists. •

BULLFROG IS SHOWING WELL

Reno People Feel Satisfied That This Property Has a Very Bright Future

Very gratifying reports are being received from the Bullfrog Monitor Company's property located on Montgomery Mountain, a short distance south of the Montgomery-Shoshone property. The main working shaft has attained a depth of thirty-two feet and in the bottom the formation is such as to warrant the management in believing that a strong vein is at hand, although the assays are not very high. Such could not reasonably be expected at this point in the development. Thorough exploitation will continue and Curtis Mann, the superintendent feels every assurance that he has the Montgomery-Shoshone vein as it is directly on the mineral belt and only a short distance south of this property. The Reno people interested in the proposition are James T. Boyd, A. N. Salisbury, Henry Anderson, M. Scheeling, Julius Schwarzchild and Dr. Rulison. These gentlemen have every confidence in the proposition and themselves and associates have supplied ample funds for the prosecution of the work.

CROCKERS INVOLVED IN SUIT OVER TITLE

C. E. Mack and J. M. Short began proceedings yesterday through the firm of Mack & Farrington, to quiet title to part of lots 5 and 6 in block X, which property is on the corner of Second and Center streets.

A flaw in the title, which is supposed to have resulted through the neglect of a previous holder to file his deed, and the subsequent loss of that instrument, necessitates the suit which is brought against the Pacific Improvement Company. Associated as defendants in the suit are C. F. Crocker, W. H. Crocker and George Crocker, the devisees of Charles Crocker, who formerly owned the realty in question.

TWO HOSPITALS

Two more cases of Bright's Disease that recovered after the treatment in hospitals had failed and life was despaired of.

One is John H. Gyselaar, the well known merchant of Eureka, Cal. He was in the Lane Hospital in San Francisco for three months. Was so swollen with dropsy he had to be tapped every ten days. He was steadily sinking when his family took him home and put him on Fulton's Renal Compound for Bright's Disease. The tappings ceased and he began to mend, and is now perfectly well. Everybody in Eureka knows of his miraculous escape.

Another case is that of Mr. T. J. Mulloy of 2316 Bryant St., San Francisco. A few months ago he was in the U. S. Marine Hospital in that city and was so low with Bright's Disease that his sister, Mrs. French, was advised by the physician in charge that a fatal end was inevitable and close at hand. She took him home and put him on the same treatment that saved Gyselaar. He recovered and five months later returned to his employment. Write either of the above if you question this.

Bright's Disease and Diabetes are curable in 87 per cent of all cases by Fulton's Compounds. Send for literature. Jno. J. Fulton Co., 409 Washington Street, San Francisco. J. G. McCullough, agent, Reno.

When to suspect Bright's Disease—weakness or loss of weight; puffy ankles, hands or eyelids; dropsy; kidney trouble after the third month; urine may show sediment; failing vision; drowsiness, one or more of these.

EDITORIAL COMMENT

Public Owership and Co-operation

THE only feasible way for such machinery as railroads and other great modern tools of production to be owned publicly is through the medium of government ownership. Public ownership is not such a difficult proposition to work out practically as it might seem to one who takes up the idea for the first time. Public ownership of the means of production is already in practical operation in a limited way in this country, as well as in foreign countries. We have the government ownership of the Post Office, and municipal ownership of gas and water works and a few other such utilities. In Europe many cities own and operate their own street cars and telephone lines, some cities run public bakeries and, in fact, there is hardly any single operation which is not carried on in one way or another in some part of the world by the government. There is little difficulty in showing that there is no machinery which cannot be operated by the government. The difficulty is to convince the people of the advantage in the government taking over the ownership and management of the public utilities, and it is indeed a very difficult task to show that there is any good in government ownership in itself. For instance, the English government owns the telegraph system, whereas in this country it is in private hands, and yet the mere fact of public ownership in England of the telegraph system has not made poverty any less prevalent there than it is in this country where there is private ownership of the telegraph system. The point that is continually being missed is that it is not merely government ownership itself that is to solve the problem of poverty, it is the Co-operative System that is to do it, and public ownership is the necessary basis for the Co-operative System. In other words, public ownership is distinctly a means and not an end. It is clear that as long as Mr. Rockefeller and other capitalists continue in the ownership of railroads and the great trusts of this country there can be no co-operative system. They, as owners, could refuse to allow the workingmen to use these necessary means of production and that would end the dream of co-operative distribution, for, without the machinery, there would be nothing produced to distribute.

Plan to Advertise the West

SALT LAKE CITY has organized a Commercial Club with the motto "See America First." It is proposed to interest tourists and endeavor to turn the tide of travel that now takes its way across the herring pond each year, and direct it toward the West. A general campaign is outlined in the prospectus to advertise the scenic beauties of the great West and to encourage a larger tourist travel.

It is estimated by conservative authorities that last year no less than $150,000,000 was spent by American sightseers in foreign countries. This vast sum was spent, in large part, by men and women seeking health, pleasure and recreation who, though natives of this country, yet are totally ignorant of the scenic beauties of the great West and its advantages of climate. With this wondrous country of natural beauty and industrial possibilities at their very doors these seekers for change will continue to crowd foreign capitals and pleasure resorts unless some means is found to call their attention to what they are overlooking at home.

As a preliminary step in the Salt Lake organization, it is proposed to call a conference of the representatives of commercial bodies of the leading cities of the West at Salt Lake City on January 25th, 1906, at which time there will be presented for consideration and discussion a detailed, definite and comprehensive plan of procedure. Arrangements are being made for a conference of the governors of the various states and territories affected and it is hoped to make the movement a united and popular one throughout the West.

As the chief city of Nevada, Reno should see to it that we are represented at this conference by strong men who will take an active part in the proceedings as in view of the interest that is now being taken in Nevada by reason of its advantages in mining and agriculture it will mean much to the future of the state if our resources are properly advertised and brought to the attention of the traveling and investing public through the medium of a strong central organization as the Salt Lake Commercial Club promises to become.

UP to Monday last eighteen people had been killed in football games this season and 137 seriously injured. Of course it is wrong to interfere with those who wish to divert themselves in such a pleasant way, but some use might be made of them by organizing them into an army to take Canada or Mexico. They might not achieve much in the way of practical results but they would have a splendid opportunity of realizing their evident ambition of getting removed hence with neatness and dispatch.

IT is said that the Korean ministers became "excessively opulent" immediately after selling the liberties of their country to Japan. Messrs. Odell, Murphy, Durham, Cox and the rest now know where to go if the events of the late campaign have disgusted them sufficiently to make them wish to emigrate.

MR. CHARLES MURPHY should obey the impulse given by the toe of the popular boot and retire to?

THERE will be a fine opportunity for some more gentle boss to do a little party reorganizing in Ohio.

IT really is not right to refer to the life insurance presidents as grafters. Graft hardly describes some of their operations.

REV. WM. RADER, writing in the Bible, declares that most people are more worthy dead than living. He must have been reading a few epitaphs.

RICHARD A. McCURDY of the Mutual Life has resigned, there is no doubt but there is some as to whether Mr. McCurdy himself is resigned to his resignation.

THE Massachusetts Mutual Life officers who wrote letters of regret to Mr. Adams on losing him as an employe can now write letters of congratulation to themselves over the same circumstance.

The PROPER THING

In Men's Fine Overcoats

TO BEGIN WITH—There are no arbitrary standards or laws for correct coats.

CUSTOM—The habit and practice of men who give much thought and careful attention to the strict proprieties of clothes, this is the chief guide.

THE THINGS—Which such men agree on, without any of the little extra "fads"—these are correct styles.

COMMON SENSE—Helps a good deal. The average man doesn't attempt to make the style. All he asks to know is what is correct; and somebody ought to tell him.

We don't intend to pose as law makers in the matter, we can tell you what is the custom of careful dressers as to propriety in dress; you will have to supply your own common sense.
